

## Purpose of the Society

The purpose and objectives of the Society shall be:  
To enrich knowledge of American history and the development  
of America through the efforts of indentured service.

To preserve the history of indentured servitude through  
(1) conservation of historical documents, (2) publication and/or  
abstracting of primary source materials, (3) partnering with  
organizations to further public awareness and acknowledge the  
contributions of our immigrant indentured servant ancestors,  
who brought their talents, skills, and labor to the colonies to  
help make their new-found country a success.
